

Expedition Log of the S/V *Carlyn*

Date: October 6th
Trip Day: 2
Location: Blake Island
Name(s): Preston and Meg
School/Grade: Odyssey

Afternoon Report From *Carlyn* to the Web

Please share some interesting stories about today...

Crews sailed from Rich Passage to W Seattle. Minor difficulties learning how to sail. Made good time to Blake Island east side.

Any favorite wildlife sightings, quotes, games to share?

Crew sighted multiple sea lions and seals. Geese and plankton. We also got to see raccoons.

Describe the anchorage or moorage where *Carlyn* is right now:

SV *Carlyn* is tied up to Blake Island dock. Minor rocking due to wave wall.

Today's weather...

Partly cloudy with a few sun breaks. 54°F

Describe highlights from today's science and sailing watches:

Some people got to be second mate. In science class we got to talk about light and white light and then eat M&Ms. We saw a jellyfish in a science tube with plankton and we learned how to back *Carlyn* into the dock.

Any questions, concerns, or expectations for tomorrow?

We hope the crew is ready to take control of *Carlyn* and we're excited to see what events tomorrow brings.
