

## Expedition Log of the S/V *Carlyn*

**Date:** September 26, 2011

**Trip Day:** Day 2

**Location:** Blake Island

**Name(s):** Kendall, Tito, Emmanuel

**School/Grade:** WHS/FP/Gates/10,11,12

### Afternoon Report From *Carlyn* to the Web

**Please share some interesting stories about today...**

We got to look at the zooplankton and phytoplankton through microscopes. We also learned how to find our location using longitude and latitude. Finally we learned how to set and strike the main sail.

**Any favorite wildlife sightings, quotes, games to share?**

We saw jellyfish, porpoise, starfish, herons, sea lions and many raccoons and deer.  
We learned the Science chant.

**Describe the anchorage or moorage where *Carlyn* is right now:**

They moored at the Blake Island.

**Today's weather...**

Rainy all day long! Cloudy, no wind, foggy.

**Describe highlights from today's science and sailing watches:**

We had a brief glance at the sun, we also got set the main sail and strike it.

We were able to deploy our equipment almost by ourselves.

**Any questions, concerns, or expectations for tomorrow?**

Will we be able to take the *Carlyn* and the crew back to Tacoma without the help of the staff?
